Anatoli Silva

Job Title

Head of Finance

Years at Fondo

Two and a half years

Childhood Dream Job

To be a police officer

Favorite Quote

"Life is really simple, but we insist on making it complicated."

-Confucius

What is your favorite part of your job?

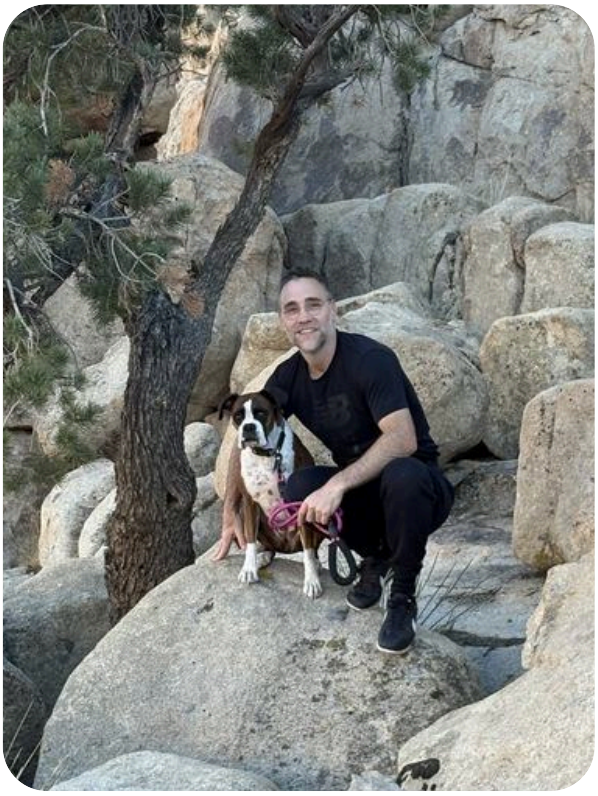

Building scalable systems that improve how the company operates. Turning messy, manual processes and poor data integrity into efficient workflows with reliable data, giving the team more time to focus on what matters.

What trait do you have that makes you great at your job?

Having a cross-functional mindset and being able to work across finance, operations, sales, marketing, and engineering to solve problems and make the business work better as a whole.

What is your favorite feature Fondo has and why?

Our integrated platform, powered by automation and a great team. It brings accounting, tax, and financial insights together, giving founders better visibility into their business while reducing the administrative work that takes them away from building it.

What advice would you give to new founders just starting out and joining the community?

Invest in your financial foundation and data integrity early. Build good processes and scalable systems from the start rather than trying to fix them once the company has grown.

What is the biggest/most unique thing you've learned about the industry?

How challenging it can be for founders to navigate finance, accounting, and tax while also building and growing a company. It's reinforced how valuable it is to make financial information simple, accessible, and actionable.
